

EU Validators' Association for Aviation Security

WOULD YOU BE INTERESTED IN BECOMING AN ASSOCIATE MEMBER OF EVAAS?

What is EVAAS?

The EU Validators' Association for Aviation Security (EVAAS) was set up in 2015 with support from the European Commission.

We represent EU Aviation Security Validators, who conduct validations globally of entities who wish to fly air cargo into the EU. These entities include air carriers, ground handling agents, logistics companies and freight forwarders.

EVAAS attends EU meetings and other industry groups on behalf of its members.

EVAAS provides advice and support to its members, as well as helping them to maintain a high level of professionalism and competence through its Quality Charter.

What are the benefits of being an Associate Member?

EVAAS has up to date access to information and forthcoming regulatory changes, and would provide timely alerts regarding any material changes to air cargo security regulations or practices that affect you and your operations.

We will remind you well before your air cargo validation is due to expire so that you can arrange a re-validation.

You would have password-protected access to the Associate Members pages of the EVAAS website.

You would also have access to a briefing package with useful information on obtaining your initial validation designation or re-validation, as well as self-assessment tools to help with how changes to business operations may affect your validation designation.

EVAAS would also offer bespoke training packages through its members in respect of air cargo security.

Are you interested in subscribing to EVAAS as an Associate Member?

Do let us know by emailing info@evaas.eu

The initial cost of Associate Membership would only be €uro 250 per year per member per site. No payment is required at this stage.
